

AMAURY PIERRE

COMPUTER SCIENCE ENGINEER

Holder of a Swiss G permit

PERSONAL PROFILE

Software Engineer with a Master's degree in Computer Science from EPFL and nearly three years of professional experience developing VR, AI-integrated, and mobile applications. Seeking a software engineering position starting August 2026.

PROFESSIONAL EXPERIENCE

Software Developer

OZWE | October 2023 - July 2026

Developed and maintained multiple products for Meta, including VR experiences and AI-integrated mobile games, most notably [Citadel](#) and [The Village](#)

Designed AI prompt-guidance systems to improve content generation quality and user interactions.

Collaborated with multidisciplinary teams to deliver production-ready features

→ **AI, Typescript, C#, Unity, XML**

Master's thesis in the industry

MotionTech | February - August 2023

Development and improvement of an algorithm for slicing 3D models in order to create silicone 3D prints

→ **C#, G-code, 3D printers**

Horizon Worlds software developer

OZWE | Summer 2022

Procedural animations and game AI on the game 'Citadel' on Horizon Worlds, Meta's metaverse platform

→ **Virtual Reality, Typescript, Animations**

Android Development Intern

Pindex (now called Fleeps) | Summer 2021

Development of the Android app "Pindex Tours", a virtual tour guide app

→ **Android Studio, Java, Kotlin, XML**

UNIVERSITY EDUCATION

EPFL | Ecole Polytechnique Fédérale de Lausanne

Bachelor's degree (2021) and Master's degree (2023) in Computer Science

- Youth Award for the youngest student in the graduating class
- Specialization in Signals, Images, and Interfaces

Lycée Edgar Faure (Morteau)

French Scientific Baccalaureate with Highest Honors (2018)

- Engineering Sciences option
- Mathematics specialization

SKILLS

Languages → English and French : fluent, German: B1

I am proficient in many programming languages, including:

- JavaScript / TypeScript / HTML / CSS
- Java / Scala
- C#
- Python and ML libraries (NumPy, PyTorch, etc.)
- Android development (Kotlin/XML)
- C++ / C
- SQL

I am also experienced with version control tools such as Git and GitHub, and I have worked on both Windows and Linux environments.

I have strong knowledge in artificial intelligence, machine learning, cybersecurity, computer vision, and computer architecture.

I am proficient with Photoshop, After Effects, and Unity.
